

Carers Strategy: Action Plan 2013 – 2016

Making connections for carers in Telford & Wrekin

This high level plan sets out how Telford and Wrekin Council and Telford and Wrekin Clinical Commissioning Group intend to commission, implement and deliver services/resources to improve the well being for carers living in Telford and Wrekin.

The local Carers Strategy has been informed by national policy: Carers at the heart of 21st Century families and communities (DH 2008) and the subsequent refreshed Carers Strategy: Recognised, valued and supported: Next steps. (DH 2010). This action plan is structured around eight core outcomes which are illustrated with the model: Managing connections with carers in Telford & Wrekin. These outcomes support and reflect what carers have told us that will make a difference to their caring lives. These are:

- 10.1 Information/Advice and Support:
- 10.2 Planning for the future
- 10.3 Promoting wellbeing
- 10.4 Time for yourself
- 10.5 Having your say
- 10.6 Meeting diverse need
- 10.7 A life outside caring
- 10.8 Feeling financially safe and secure

Guided by recent consultations we will be focussing on the following priorities during the first year of our work:

- ~ 10.1: Information, Advice and Support
- ~ 10.2 Planning for the future
- ~ 10.7 A life outside caring

To ensure the action plan is owned and delivered we will:

- We will work with stakeholders to inform the way we collate information and proposal to implement action plan requirements by July 2013.
- We work with stakeholders and carers to refine delivery plans work in partnership to reflecting co-operative council principles.
- We will review the action plans in partnership annually to recognise achievements and acknowledge emerging developments as defined by the Health and Well Being priorities.
