**PART A) – SUMMARY REPORT**

**1. SUMMARY OF MAIN PROPOSALS**

Earlier this year the Future Fit Programme signed off a proposal to support the initial phase of the community fit work plan. Phase one comprised of a work programme to understand and quantify the consequences to the wider health and social care economy of the proposed future fit hospital reconfiguration.

The aim of the community fit programme is to model and describe the types of service which will be required in primary care and community services to absorb the activity coming out of the acute trust.

The paper at Appendix A gives further detail of the work undertaken to date and the planned work to be undertaken as part of Phase 1 of the enabling project.
