

- General Notes**
1. Do not scale.
  2. This drawing is to be read in conjunction with all other relevant drawings.
  3. Should there be any discrepancy between details indicated on this drawing and those indicated on other drawings the Engineer should be informed PRIOR to construction on site.
  4. Until technical approval has been obtained from the relevant Authorities it should be understood that all drawings issued are preliminary and NOT for construction. Should the contractor start site work prior to approval being given, it is entirely at his own risk.
  5. All dimensions shown are in metres unless noted otherwise.
  6. This drawing is based on Survey Three Ltd Drawing Number, 43338a, dated 13.04.18.
  7. All survey information is provided by the surveying company and HSP cannot accept any liability for any discrepancies there in. All survey information to be verified on site by contractor. Should discrepancies be identified, HSP to be notified immediately.
  8. The levels and gradients shown on this drawing have been designed in accordance with current industry standards, to comply with BS5948:2015 Asphalt for Roads and Other Paved Areas and BS EN 752:2008 Drain and Sewer Systems Outside Buildings.
  9. Where proposed gradients are slacker than 1 in 60 surfaces should be laid using tight construction control measures to achieve a surface irregularity no greater than 3mm beneath a 3m straight edge laid in any direction.
  10. Unless specified otherwise all earthworks shall be in accordance with the requirements of series 600 of The Specification of Highway Works.

**Key to Proposals**

+ 136.680	Proposed Levels
+ 135.585	Existing Survey Levels
1/40	Proposed Gradients
	Proposed Batters
	Retaining wall
